### **PARTS LIST**

# STEP | 1

Undo the existing bottom frame bolt from the spin swing using M8 Allen key.

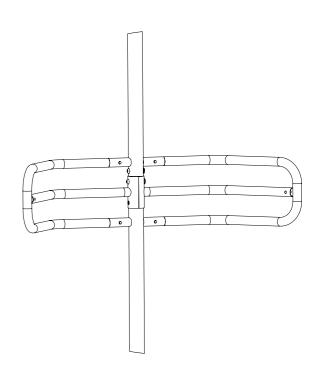

## STEP | 2

Install both additional tubes to the upper spin pole (left and right side).

Secure in place using the bolt that was removed in **Step 1**.

Do not tighten bolt yet.

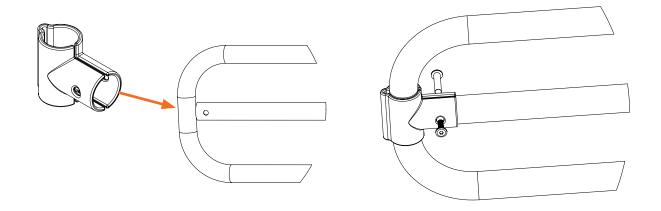

### STEP 3

Open the T-joiner and slide it into the side of the existing spin swing handle (repeat for left and right side).

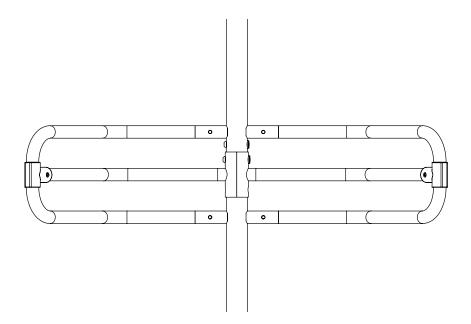

Make sure the hole for the additional tube is align with the T-joiner hole.

Secure in place with bolts and nuts provided using M5 Allen key.

# STEP | 4

Make sure the additional kit is assembled as shown below and all bolts and nuts are tightened.

# **CONGRATULATIONS!**

You have assembled your spin swing additional kit.
